

And this is how you participate in the AOK Specialist Programme:

In order to participate in the AOK Specialist Programme, you have to be enrolled in the AOK Family Doctor Programme. Your family doctor refers you to the specialist in any case. That, too, is at no charge to you as an AOK member.

You can find out at haus-arztsuche.de and at medi-artztsuche.de, which family doctors and specialists near you work with us.

Once you are participating in the AOK Specialist Programme, if you have health problems, you should only see specialists who participate in the programme.* This ensures that you will be able to take advantage of the benefits of the AOK Specialist Programme.

* Does not apply to emergencies or outside of Baden-Wuerttemberg (while on vacation, for example).

Everything for integrated care and consultation:

GESUNDNAH

The AOK Specialist Programme.

For integrated treatment that is even better tailored to you.

AOK Baden-Württemberg

All-round best care with the AOK Specialist Programme.

Whether the complaints are acute or chronic, every patient wants medical care that helps him as quickly and in as targeted way as possible. That's why we offer you **integrated care that is tailored to your individual needs in our AOK Specialist Programme.**

Not only do you get appointments with specialists more quickly, your family doctor also works closely with the specialists. Together they sort out all the important questions related to your treatment and thus avoid, for example, unnecessary duplicate examinations, hospital stays or complications with medications.

All in all, your specialist can take more time with you this way and can discover exactly what the causes of your medical problems are. And this at the top medical level: Because all the specialists who work with AOK, treat you according to current, scientifically confirmed guidelines.

The AOK Specialist Programme comprises the following medical specialities*:

- Cardiology for heart and cardiovascular diseases
- Gastroenterology for gastrointestinal disorders
- Psychiatry, neurology and psychotherapy for diseases of the nerves and the mind
- Orthopaedics/rheumatology for diseases of the locomotor or the musculoskeletal system and for systemic inflammatory rheumatic diseases
- Urology for diseases of the urogenital tract
- Diabetology for care of type 1 and type 2 diabetics and diabetes during pregnancy

Other speciality areas will be added.

* It is not necessary to enrol for the individual areas of specialization: With participation in the AOK Specialist Programme, all the speciality areas listed are available to you from the start and as needed.

Exclusive and free of charge to all AOK members.

Do you still have questions? We are happy to serve you at the AOK Customer Centre in your area and at 0800 2652965.

Overview of all your benefits:

- Your treatment is always state-of-the-art medicine, because all participating specialists take regular advanced training
- Because your family doctor and specialist work together, the treatment is always integrated and tailored to your personal needs
- You get an appointment within two weeks
- In urgent cases you get an appointment with your specialist on the same day, within three days for psychotherapists
- Doctor's office waiting times of 30 minutes maximum
- As a working person, you may take advantage of evening office hours once a week until 8:00 p.m.
- Many discounted medicines are without copayment for you

By the way: Even if you do not currently have an acute illness, participation in the AOK Specialist Programme is worthwhile so that in the event of a problem you will receive the best possible care.
