

So that you are always well treated.

The AOK-HausarztProgramm for medical care tailored to your needs.

GESUNDNAH

AOK Baden-Württemberg
Die Gesundheitskasse.

Hausarzt-
Programm

Get the best treatment: with the AOK-HausarztProgramm.

Your general practitioner (GP) surgery is your first point of contact for health-related complaints. You will receive support there to help you make the right decisions concerning your health.

The aim of the AOK-HausarztProgramm is to strengthen the relationship between you and your GP – by providing more time for personal consultation and even higher-quality treatment.

Exclusively and free of charge for all persons insured with AOK

This is how you can find GP surgeries in your area that participate in the AOK-HausarztProgramm.

If your GP surgery already participates in the AOK-HausarztProgramm, you can register directly. Should you not yet have a GP or are looking for a participating medical surgery, you can find all participating GP surgeries in your area at **hausarzt-suche.de** or **medi-arztsuche.de**.

Of course, the AOK KundenCenter (AOK customer centre) in your area will also be glad to be of assistance if you have any questions about the **AOK-HausarztProgramm**.

So your GP surgery can provide you with even more personalised advice and better treatment.

With the AOK-HausarztProgramm, we create the best conditions for optimal medical care. The doctors participating in the programme are always up to date with the latest scientific developments thanks to regular training and further education.

Your treatment is tailored to your personal situation. After a detailed discussion and a physical examination, the GP will plan your treatment together with you. The focus is on you as a person – your wishes, needs and fears as well as your personal situation. If necessary, you will be referred to the right specialists for further diagnostics or for additional therapy.

How it works:

- Find out which GP surgeries in your area participate in the AOK-HausarztProgramm – from your AOK or at **hausarzt-suche.de** or **medi-arztsuche.de**.
- Make an appointment at one of these GP surgeries and register for the AOK-HausarztProgramm there
- You will receive a welcome letter from your AOK with information on when your enrolment will commence
- From this point on, you should always seek the advice of your GP first in all health-related matters*

*In an emergency, you can of course go directly to any other doctor or to the organised emergency services. This also applies to emergency care outside Baden-Württemberg or while on holiday.

Would you like even more benefits? Then it's best to also opt for the AOK-FacharztProgramm.

Your doctors participating in the AOK-Hausarzt-Programm will be glad to be of assistance and can also register you directly. In addition, the AOK is happy to help as usual – by phone, digitally and at the AOK customer centres.

The advantages of the AOK-HausarztProgramm at a glance.

- Higher quality of treatment, as your GP is always up to date with the latest medical knowledge and is familiar with your treatment
- More time for personal consultation
- Your treatment is better managed through close networking with treating medical specialists
- Advice on a lifestyle that protects your health as well as the climate
- You can take advantage of the annual 'Check-up 35' health examination with additional laboratory tests
- Many discounted medicines are available to you without copayment
- Reimbursement of the costs of non-prescription medicines from pharmacies for persons insured with AOK aged between 12 and 17*
- 'AOK Check-up 18+' is a free health check-up to identify any medical risks for persons insured with AOK aged between 18 and 34

*When prescribed by doctors participating in the AOK-Hausarzt-Programm.
