Facharzt-
Programm

Excellent comprehensive care.

For all medical complaints, whether acute or chronic, it's important to get quick and specialist help. That's where we come in with the AOK-FacharztProgramm.

The AOK-FacharztProgramm is an additional service to the AOK-HausarztProgramm and offers you comprehensive treatment using the latest medical findings. If you participate in this programme and your general practitioner (GP) refers you, please exclusively contact participating medical specialists. They will provide you with:

- Consultation that takes into account all physical and mental burdens as well as your personal situation
- Treatment in which all steps are well coordinated and aligned

This way, you can make an informed decision together with your doctors about the right treatment for you.

The following specialist areas are covered:

- Cardiology for cardiovascular diseases
- Gastroenterology for gastrointestinal diseases
- Psychiatry, child and adolescent psychiatry, neurology and psychotherapy
- Orthopaedics for diseases of the musculoskeletal system and rheumatology
- Urology for diseases of the urinary tract and male reproductive organs
- Diabetology for the additional care of Type 1 and Type 2 diabetes with technological aids, diabetic foot syndrome and diabetes during pregnancy
- Nephrology for kidney diseases
- Pneumology for lung diseases

Exclusively and free of charge for persons insured with AOK: AOK-Clarimedis.

Simply call **+49 0800 1 265 265** to get information from medical experts in a wide range of fields.

The most important advantages for you:

- Your treatment will always be based on the latest medical findings, as all participating medical specialists undergo regular further training
- All of your health complaints as well as your personal situation will be taken into account in your treatment
- If desired, the AOK Baden-Württemberg Social Services department can also support you in complex situations concerning care and provision
- Thanks to the close network of doctors treating you, you are always well informed so that you can decide on your treatment
- You will receive appointments faster with participating specialist and psychotherapy surgeries
- You will receive copayment rebates on many discounted drugs and diabetic aids

How it works:

By participating, you opt for all specialist medical areas covered by the programme, not for individual medical specialists. To find out which general practitioners and specialist medical surgeries in your area work with us, visit **hausarzt-suche.de** or **medi-arztsuche.de**.

To benefit from the AOK-FacharztProgramm, you must be registered for the AOK-HausarztProgramm: you can register for the AOK-FacharztProgramm either with your GP or at a participating specialist medical surgery.

As soon as you join the AOK-FacharztProgramm, you should only consult the medical specialists participating in this programme if you have any medical complaints.* This ensures that you benefit from the advantages of the AOK-FacharztProgramm.

*Does not apply in an emergency or outside of Baden-Württemberg (e.g. on holiday).

AOK Baden-Württemberg is always close by.

As a health insurance provider, we take care of each customer personally and cater individually to your specific needs. That's why you can reach us any time in the way that's best for you. Our digital services and how to contact us:
