Date, signature of the patient or legal representative

Please note the following tips:

We are an appointment practice! Please make an appointment for each doctor's visit.

If you are unable to comply with it, please cancel it at least 24 hours in advance. Please note that we can only treat you without an appointment in case of acute discomfort. In this case, please call briefly at the beginning of the consultation so that we can schedule you or introduce yourself as soon as possible during the consultation time. Patients without an appointment must plan longer waiting times.

Please also arrange appointments for planned laboratory tests. On the day of the laboratory examination you will receive the necessary laboratory certificate here in the registration. You can always reach the practice by telephone at the doctor's mentioned office hours.
